--	-----	--------

Official fuel consumption figures for the Alfa Romeo Giulia Quadrifoglio mpg (l/100km) combined: 28.0 (10.1). CO₂ emissions: 229g/km. Fuel consumption figures determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
